

capacity regulation as used in this subpart.

(hh) *Through transportation* means continuous transportation between origin and destination for which a through rate is assessed and which is offered or performed by one or more carriers, at least one of which is an ocean common carrier, between a United States point or port and a foreign point or port.

(ii) *Transshipment agreement* means an agreement between an ocean common carrier serving a port or point of origin and another such carrier serving a port or point of destination, whereby cargo is transferred from one carrier to another carrier at an intermediate port served by direct vessel call of both such carriers in the conduct of through transportation. Such an agreement does not provide for the concerted discussion, publication or otherwise fixing of rates for the account of the cargo interests, conditions of service or other tariff matters other than the tariff description of the transshipment service offered, the port of transshipment and the participation of the nonpublishing carrier. An agreement which involves the movement of cargo in a domestic offshore trade as part of a through movement of cargo via transshipment involving the foreign commerce of the United States shall be considered to be in the foreign commerce of the United States and, therefore, subject to the Shipping Act of 1984 and the rules of this part.

(jj) *Vessel-operating costs* means any of the following expenses incurred by an ocean common carrier: Salaries and wages of officers and unlicensed crew, including relief crews and others regularly employed aboard the vessel; fringe benefits; expenses associated with consumable stores, supplies and equipment; vessel fuel and incidental costs; vessel maintenance and repair expense; hull and machinery insurance costs; protection and indemnity insurance costs; costs for other marine risk insurance not properly chargeable to hull and machinery insurance or to

protection and indemnity insurance accounts; and charter hire expenses.
